

BIOMASS PRESS

HYDRAULIC

Model: hydraulic biomass press APTW 50

Product advantages:

Pressing chamber is closed with steel dead-bolt which guarantees appropriate hardness of briquettes

Efficiency: up to 50kg/h

Briquette diameter: 40-50 mm

Hopper capacity: 0,2 m³

Installed power: 5,5 kW

Energy consumption: ca 3 kWh

Oil container: 200 l

Piston stroke: 280 mm

Number of cycles: 6-12/min

System pressure: max 210 bar
